

Where Ken stands on the key issues:

WATER ISSUE:

For nine months I have been speaking about the water issue in the Central Valley. Sheriff Mack and I have discussed this issue in depth. As Governor, my first act of business will be to sign an Executive Order turning the pumps on and letting the water flow into the Central Valley.

ECONOMY/JOBS

The politicians in Sacramento have strangled the life out of California businesses and have put **4 million Californians out of work**. I will repeal the abusive rules, regulations and taxes that have crippled our economy and devastated our families. I will jump start the economy by giving tax breaks to existing businesses and start an immediate campaign to bring new business into California, creating jobs for every man and woman. If you are an able bodied person on welfare, GET READY, we will have a job for you too.

STATE INCOME TAX

As Governor, I will eliminate the State Income Tax for all Californians and initiate a State Consumption tax. By doing this, every resident, visitor, and illegal from any nation will pay their fair share, creating a much greater cash flow for California. You and I, the residents of this state will no longer bear the tax burden alone.

SECOND AMENDMENT

Based on the Second Amendment to the United States Constitution, citizens have the right to bear arms and that goes for ammunition too! Furthermore, the California Constitution guarantees all Californians the right to defend life, liberty and the protection of property. I will defend your individual right to bear arms and ammunition, according to the Constitution of the United States and California.

MARRIAGE AND PRO LIFE

The current polls would have you believe that 50% or more of all Californians support same sex marriage. Some say that California is a liberal state. That is simply not true. Twice the people of this state have voted for Prop 8 and won. **I agree with the people!** I believe in the families of California. Marriage is between a man and a woman! **Further**, I will protect the life of the unborn and firmly believe that life begins at conception.

EDUCATION

Did you know that California spends 50% of its entire budget on Education? This equates to about \$60 BILLION DOLLARS ANNULLY. Yet our children are at the bottom of all 50 states in test scores and education. It is apparent we do not have a MONEY PROBLEM... We have a MANAGEMENT PROBLEM. As Governor I will reconstruct the education system from the top down. I will get the state out of education and put the power of education back into the hands of the local school boards, where parents can decide their children's future. I will initiate the voucher system and take the limits off charter schools giving our children the maximum opportunity to learn and become responsible individuals.

STATES RIGHTS

As Governor of the State of California, the duty of preserving the sovereignty of California falls squarely on my shoulders. I will begin this process by resurrecting the California State Sovereignty Resolution, Senate Joint Resolution No. 44 (adopted August 23, 1994), thus declaring the Obama "Health Care Bill" null and void in California. Then I will order the Attorney General of California to **proceed with nullification**. As Governor, no longer will I allow the socialist Federal Government to interfere when we have the ability to make our own decisions for the good of all Californians. We will drill for oil off our coast. We will harness the power of the wind and the sun. We will develop small mini-nuclear power plants. We will do what the Federal Government says we cannot, **AND WE WILL TURN THE WATER ON TO THE CENTRAL VALLEY. Make no mistake about it. These are tough times. You are going to need a tough Governor who is willing to stand up for you and your family. I am that Governor.**

POWER OF THE VOTE

This election is not about me. It is about WE! "We The People" have the power to vote out every liberal politician in the House and the Senate. We have the power to dethrone the wealthy that are trying to buy the Governors chair. We the people will not fade quietly into the night. We will stand against the socialist regime in this state and in this nation. We will stand with the Founding Fathers of this great nation. **In fact, we are the founding fathers and mothers of a new State and a new Nation.** Our goal is liberty and justice for all without excessive taxation. Our Bible is the Constitution of the United States of America and California. **We will not fail. We will prevail.** Our children and all generations to come will look back on this moment in time and give thanks for what we have done today. **Our time has come!** "We The People" have been given an opportunity to restore this state and this Nation. **WE CAN DO IT! WE WILL DO IT! My name is Ken Miller and I am running for Governor of California AND TOGETHER WE WILL WIN!!!**

For The People,

Ken Miller

Candidate, Governor of California
